

Program of events. Theme 1-2 session Wednesday April 25.
EUR-OCEANS annual PI meeting Glyfada Greece

14:30-14:40 Introduction and info Christian Møllmann & Frede Thingstad

14:40-15:00 *Louis Legendre* CNRS/LOV “A new approach to planktonic microbes: the microbial hub”

15:00-15:20 *Marie Eichinger* CNRS/LMGEM “Modelling DOC assimilation by pelagic bacteria”

15:20-15:40 *T. Frede Thingstad* Winnie-the-Pooh strategists; relationships between microbial life strategies and biogeochemistry

15:40-16:00 *Rafel Simó* ICM/CSIC. “Ups and downs in the plankton/sulphur/clouds/sunlight feedback”

16:00-16:30 Break

16:30-16:50 *Sarah Fiorini* CNRS LOV ” Impact of sea temperature and CO2 increase on marine organisms”

16:50-17:10 *Marie Boye* CNRS IUEM ” The International Polar Year oceanographic project BONUS-GOODHOPE.”

17:10-17:30 *Wes Hinsley*. Imperial College. “Modelling Ecosystems with the Virtual Ecology Workbench”

17:30-17:50 *Ivo Grigorov*. CNRS IUEM. “Comparing virtual biogeochemistry- EUROCEANS' Model Shopping Tool”

17:50-18:00 *Ivo Grigorov* Report from the “International Symposium on 'Parameterization of trophic Interactions in Ecosystem Modelling' held in Cadiz, Spain. March, 20th to 23rd, 2007
